CURRENT LIST of MEDICAL LITERATURE

Vol. 11 October 18, 1946 No. 13

SUBJECT GROUPS ACCORDING TO JOURNALS

* 1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
* 5. Bacteriology; Parasitology
6. Biology; Embryology
* 7. Bone; Joint; Extremities; Muscle
8. Cancerology
* 9. Cardiovascular System
*10. Chemistry; Physics
*11. Dentistry; Stomatology
12. Dermatology
*13. Diagnosis; Clinical Methods
*14. Dietetics; Foods; Nutrition
15. Digestive System
*16. Endocrinology
17. Forensic Medicine; Toxicology
*18. Genetics; Eugenics
*19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
*22. Homeopathy; Osteopathy, etc.
*23. Hospitals
24. Immunology; Serology
*25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
* 27. Medicine
28. Metabolism
* 29. Military and Naval Medicine
* 30. Miscellaneous
* 31. Neurology; Psychiatry
* 32. Nursing
33. Ophthalmology
* 34. Otorhinolaryngology; Phoniatry
* 35. Pathology
* 36. Pediatrics; Child Welfare
* 37. Pharmacology; Pharmacy
* 38. Physiology
* 39. Psychology; Mental Hygiene
* 40. Public Health; Sanitation
* 41. Radiology; Phototherapy
42. Respiratory System
* 43. Surgery; Traumatology
* 44. Therapeutics
* 45. Tropical Medicine
* 46. Tuberculosis
47. Urology
* 48. Venereal Diseases; Sexology
* 49. Veterinary Medicine
* 50. Zoology

THE ARMY MEDICAL LIBRARY
Washington, D. C.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., $3.00 per year ($3.75 foreign) 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents at the above address.

*

Published weekly by the ARMY MEDICAL LIBRARY 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the War Department. Lists all articles of medical interest contained in current journals received. Subject-indexes provided monthly. EXCHANGE INVITED

1. Anatomy; Histology

Anat. Rec., 1946, 95: (Jul.)

EVANS, F. G. The anatomy and function of the foreleg in salamander locomotion. 257-81.

REYNOLDS, S. R. M. The relation of hydrostatic conditions in the uterus to the size and shape of the conceptus during pregnancy; a concept of uterine accommodation. 283-96.

PEARSON, A. A., & O'NEILL, S. L. A silver-gelatin method for staining nerve fibers. 297-301, incl. pl.

ESSENBERG, J. M. Glass and steel containers for human anatomy. 303-5.

PATTEN, B. M. Fusion of notochord to neural tube in a human embryo of the sixth week. 307-11, incl. pl.

BISHOP, D. H., & LEATHEM, J. H. Response of prepuberal male mice to equine gonadotropin. 313-9.

POGOGEFF, I. A., & MURRAY, M. R. Form and behavior of adult mammalian skeletal muscle in vitro. 321-35, incl. 3 pl.

FARRIS, E. J. The time of ovulation in the monkey. 337-45.

LOW, F. N. An anomalous middle meningeal artery. 347-51.

WASHBURN, S. L. The sequence of epiphysial union in the opossum. 353-63.

5. Bacteriology; Parasitology

J. Bact., 1946, 52: (Aug.)

CARLSON, H. J., BISSELL, H. D., & MUELLER, M. G. Antimalarial and antibacterial substances separated from higher plants. 155-68.

TRAUB, F. B., HOLLANDER, A., & FRIEDEMANN, U. The potentiation of tetanus toxin by broth and serum. 169-77.

EIGELSBACH, H. T., CHAMBERS, L. A., & CORKELL, L. L. Electron microscopy of Bacterium tularense. 179-85.

STARR, M. P. The nutrition of phytopathogenic bacteria; the genus Agrobacterium. 187-94.

STOKES, J. L., & GUNNESS, M. The amino acid composition of microorganisms. 195-207.

APPLEMAN, M. D., & SEARS, O. H. Studies on lyophiled cultures; lyophile storage of cultures of Rhizobium leguminosarum. 209-11.

HUTNER, S. H. Organic growth essentials of the aerobic nonsulfur photosynthetic bacteria. 213-21.

RAKE, G., & DONOVICK, R. Studies on the nutritional requirements of Streptomyces griseus for the formation of streptomycin. 223-6.

STOCKTON, J. R., & WYSS, O. Proteinase production by Bacillus subtilis. 227.

FEUSTEL, I. C., & HUMFELD, H. A new laboratory fermenter for yeast production investigations. 229-35.

KALTER, S. S., MORDAUNT, V. D., & CHAPMAN, O. D. The isolation of Escherichia coli phage by means of cationic detergents. 237-40.

SNYDER, T. L., ENGLEY, F. B., jr. [et al.] A dilution plate counting method for certain strains of Bacterium tularense. 241.

BRAUN, W. The effect of serum upon dissociation in Brucella abortus; a demonstration of the role of selective environments in bacterial variation. 243-9.

REID, R. D., & BREWER, J. H. The reductase method for the determination of pen icillin concentrations in body fluids. 251-4.

OLITSKY, P. K., & FINDLAY, G. M. The use of the rodent-adapted MEF1 strain of human poliomyelitis in neutralization tests with serum of apparently normal African natives. 255.

WELLS, W. F. The tubercle bacillus as an indicator organism in quantitative studies of airborne infection; quantitative aerosol suspension of tubercle bacilli. 258.

CRUMB, C. The tubercle bacillus as an indicator organism in quantitative studies of airborne infection; quantitative enumeration of tubercle bacilli in vitro. 258.

RATCLIFFE, H. L. The tubercle bacillus as an indicator organism in quantitative studies of airborne infection; quantitative enumeration of tubercle bacilli in vivo. 259.

7. Bone; Joint; Extremities; Muscle

Ann. Rheumat. Dis., Lond., 1946, 5: (Mar.)

KELLY, M. The nature of fibrositis; a study of the causation of myalgic lesion (rheumatic, traumatic, infective). 69-77.

LUCCHESI, O., LUCCHESI, M., & BAILONIE, S. Weltmann coagulation reaction in rheumatoid arthritis. 78-82.

GIBSON, H. J., & PITT, R. M. The formol-gel test on plasma and serum in rheumatic cases; correlation studies and a suggestion that non-rouleaux-forming pathological globulins may be of significance in rheumatism. 83-7.

FLETCHER, E. Necrobiotic nodules of rheumatoid arthritis type with lipoid deposition. 88-95.

COKE, H. Fibrositis and beta-diethylamino ethyl dehydrocholate. 96-8.

WOODMANSEY, A. The cold-reaction test for peripheral vasomotor disturbances in rheumatism. 99-102.

TEGNER, W. Ankylosing spondylitis; review. 103.

9. Cardiovascular System

Mod. Concepts Card. Dis., 1946, 15: No. 9.

STEIN, I. D. Vascular injuries due to cold with particular reference to the late phase of trench foot. 1.

10. Chemistry; Physics

Ann. N. York Acad. Sc., 1946, 47: (Aug. 29)

VICKERY, H. B. The contribution of the analytical chemist to protein chemistry. 63-94.
STEIN, W. H., & MOORE, S. The use of specific precipitants in the amino acid analysis of proteins. 95-118.
SHEMIN, D., & FOSTER, G. L. The isotope dilution method of amino acid analysis. 119-34.
CANNAN, R. K. Chromatographic and ion exchange methods of amino acid analysis. 135-59.
SNELL, E. E. Microbiological methods in amino acid analysis. 161-79.
ARCHBALD, R. M. Enzymatic methods in amino acid analysis. 181-6.
BRAND, E. Amino acid composition of simple proteins. 187-228.
SOME correlations between physico-chemical data and the amino acid composition of simple proteins. 229-36.

Annual Rev. Biochem., 1946, 15:

ELLIOTT, K. A. C. Biological oxidations and reductions. 1-34.
WYNNE, A. M. Non-oxidative enzymes. 35-74.
PEAT, S. Plant carbohydrates. 75-92.
BROWN, J. B. The chemistry of the lipids. 93-118.
McMEEKIN, T. L., & WARNER, R. C. The chemistry of the proteins and amino acids. 119-54.
REICHSTEIN, T., & REICH, H. The chemistry of the steroids. 155-92.
CORI, C. F., & CORI, G. T. Carbohydrate metabolism. 193-218.
STADIE, W. C. Fat metabolism. 219-46.
RITTENBERG, D., & SHEMIN, D. The metabolism of proteins and amino acids. 247-72.
DUTCHER, R. A., & GUERRANT, N. B. The vitamins. 273-346.
SELYE, H., & JENSEN, H. The chemistry of the hormones. 347-60.
LEICESTER, H. M. The biochemistry of teeth. 361-74.
SNELL, E. E. Growth factors for micro-organisms. 375-96.
FRENCH, C. S. Photosynthesis. 397-416.
JAMES, W. O. The respiration of plants. 417-34.
NEUBERG, C. The biochemistry of yeast. 435-74.
BARKER, H. A., & DOUDOROFF, M. Bacterial metabolism. 475-504.
KABAT, E. A. Immunochemistry. 505-38.
HOSKINS, W. M., & CRAIG, R. Organic insecticides. 539-72.
PIRIE, N. W. The viruses. 573-92.
HARTUNG, W. H. Inactivation and detoxication of pressor amines. 593-616.

J. Phys. Chem., 1946, 50: (Jul.)

GONICK, E. Stokes' law and the limiting conductance of organic ions. 291-300.
PUCK, T. T., & WISE, H. Studies in vapor-liquid equilibria; a new dynamic method for the determination of vapor pressures of liquids. 329-39.
RUBY, W. R., & LOVELAND, R. P. Determination of the density of a fine powder. 345-63.
KIENLE, R. H., STEARNS, E. I., & VAN DER MEULEN, P. A. A correlation of structure with fastness to light of monoazo dyes. 363-73.
TELANG, M. S. On the application and derivation of the new viscosity temperature relationship on liquids. 373-86.

11. Dentistry; Stomatology

Dent. Health, 1946, 6: No. 3. (Aug.)

WILSON, N. W. Can a dental health card system succeed in high schools. 9-11.

Ind. Dent. J., 1946, 18: (Jul.-Sept.)

BHAT, J. V., & SHETTY, M. V. The incidence of dental caries in Bombay. 113-5.
KAPADIA, S. P. Post-extraction hemorrhage. 115-9.

J. Am. Dent. Ass., 1946, 33: (Apr.)

DENTISTRY in wartime Germany. 409-45.
KENDRICK, Z. V. Sears hydrocolloid impression technic in restorative dentistry. 445-54.
WILSON, W. L. A consideration of the possibility of hereditary diatheses in dental caries. 455-65.
PORTEOUS, G. C., & VONDRAN, W. T. The porcelain-acrylic jacket crown. 465-7.
DAY, H. W. Normal functional occlusion; its importance in prevention and treatment of pyorrhea. 468-76.
MOULTON, R. Psychologic problems associated with complete denture service. 476-85.
LUDWICK, W. E. Construction of immediate temporary bridge. 486-9.
JAY, P. Fluorine and dental caries. 489-95.
MEAD & FITZGERALD, L. M. [et al.] Further testimony from hearings on dental research and grants-in-aid-bills. 499; passim.

J. Am. Dent. Ass., 1946, 33: (Jun.)

KESEL, R. G., O'DONNELL, J. F. [et al.] The biological production and therapeutic use of ammonia in the oral cavity in relation to dental caries prevention. 695-714.
WELTY, L. G., & GLASGOW, R. R. A system of dental identification. 714-20.
WIHR, N. L. A comparison of methods of treating Vincent's infection. 721-5.

STEWART, G. G. Comparative methods of using penicillin in the treatment of Vincent's infection and other oral lesions. 725-31.

WEINER, L., & WALD, A. H. Fibrin foam and thrombin as used in the surgical removal of a large fibromyxoma of the mandible. 731-5.

KLEIN, H. The family and dental disease; dental disease (DMF) experience in parents and offspring. 735-43.

TESTIMONY of the American Dental Association on Wagner-Murray-Dingell bill (S. 1606) 743-54.

FROEHLKE, A. W. The dentist and the dental laboratory. 776.

J. Ohio Dent. Soc., 1946, 20: (Aug.)

SEBALD, H. A. Vincent's infection of the mouth. 126-9.

13. Diagnosis; Clinical Methods

Am. J. M. Techn., 1946, 12: (Jul.)

LONG, M. V. Methods of Rh studies in a private hospital blood bank. 139-45.

IKEDA, K. The future of medical technology (as seen by a clinical pathologist) 146-55.

BECTON, C. M. Some applications of semimicro chemistry to routine urinalysis. 156-61.

14. Dietetics; Foods; Nutrition

Food Indust., 1946, 18: (Sept.)

MUTSCHLER, W. J. Canning drinking water. 1351-3.

LAING, M. L., & BARRETT, J. P. Packing plant sanitation calls for good housekeeping. 1354-7.

16. Endocrinology

Endocrinology, 1946, 39: (Jul.)

HUGGINS, C., & RUSSELL, P. S. Quantitative effects of hypophysectomy on testis and prostate of dogs. 1-7.

BELANGER, L. F., & LEBLOND, C. P. A method for locating radioactive elements in tissues by covering histological sections with a photographic emulsion. 8-13, incl. pl.

JUHN, M. Effect of thiouracil on the juvenile plumages of Brown Leghorn fowl. 14-22, pl.

MEYER, R. K., BIDDULPH, C., & FINERTY, J. C. Pituitary-gonad interaction in immature female parabiotic rats. 23-31.

INGLE, D. J., LI, C. H., & EVANS, H. M. The effect of adrenocorticotrophic hormone on the urinary excretion of sodium, chloride, potassium, nitrogen and glucose in normal rats. 32-42.

INGLE, D. J. The production of alimentary glycosuria by forced feeding in the rat. 43-51.

INGLE, D. J., SHEPPARD, R. [et al.] A comparison of the acute effects of corticosterone and 17-hydroxycorticosterone on body weight and the urinary excretion of sodium, chloride, potassium, nitrogen and glucose in the normal rat. 52-7.

J. Clin. Endocr., 1946, 6: (Jul.)

SMITH, O. W., & SMITH, G. V. Studies concerning the cause and purpose of menstruation. 483-92.

LEONARD, M. F. Chronic idiopathic hypoparathyroidism with superimposed Addison's disease in a child. 493-506.

CAWADIAS, A. P. Adrenocortical cancer with undulating fever in Addison's disease. 507-14.

TRAUT, E. F. A new sign on the climacteric. 515.

ANDREWS, D. L. A simple test for hormone deficiency in the male. 516-9.

GURCHOT, C., & KREBS, E. T., jr. Early production of steroid hormone by trophoblast. 519.

18. Genetics; Eugenics

Marriage & Family Living, 1946, 8: No. 3.

BOWMAN, H. Education for marriage and family life. 63.

19. Gynecology; Obstetrics

J. Obst. Gyn. Brit. Empire, 1946, 53: (Jun.)

GUNN, J. A., & RUSSELL, C. S. The action of adrenaline on the excised human uterus; with a short additional note on the action of quinine. 205-11, 2 pl.

BAXTER, J. Moulding of the foetal head; a compensatory mechanism. 212-8.

SPAIN, A. W. Acute inversion of the uterus. 219-22.

SPAIN, A. W., & GEOGHEGAN, F. Diabetes insipidus in association with postpartum pituitary necrosis. 223-7, 4 pl.

DRILLIEN, C. M. A study of normal and abnormal menstrual function in the Auxiliary Territorial Service. 228-41.

HEYNS, O. S. Classification of the human pelvis, with a preliminary note on the evolution of the anthropoid or ultradolichopellic type of pelvis. 242-50.

YOUNG, J., KING, E. J. [et al.] A nutritional survey among pregnant women. 251-9.

DAVIES, D. T., GUNSON, E. B. [et al.] Haemoglobin values in female workers. 260-8.

OBERMER, E. Calcium and phosphorus metabolism in pregnancy (a survey under war and post-war conditions) 269-77.

ALLEN-WILLIAMS, G. M., & SUTHERLAND, I, Residential rest during the antenatal period. 278-84.

WATERS, H. S. Full-time secondary abdominal pregnancy with delivery of living child. 285-8.

J. Obst. Gyn. Brit. Empire, 1946, 53: (Aug.)

THEOBALD, G. W. Some gynaecological aspects of referred pain. 309-27.

MØLLER-CHRISTENSEN, E., & THYGESEN, J. E. Investigation of the serum protein balance in normal and toxaemic pregnant women. 328-44.

BLOOMFIELD, A. Six cases of venous intravasation following intrauterine lipiodol injection. 345, 7 pl.

ANDERSON, A. F. Spinal analgesia for forceps delivery in abnormal labour. 347-61, tab.

OBERMER, E. Calcium and phosphorus metabolism in pregnancy (a survey under war and post-war conditions) 362-7.

JACOBS, A. L. Pulmonary tuberculosis and pregnancy. 368-76.

BURROWS, H., & EWERS, P. J. The cause of prolapsus uteri in women in the light of perineal prolapse in mice. 377, pl.

Mother & Child, Lond., 1946, 17: (Aug.)

LEDEBOER, J. G. Planning a home; making a home; running a home. 82-4.

KERSHAW, J. D. Marriage. 84-9.

PILBEAM, J. F., CLINCH, L. Incidence of dental disease and the care of the teeth of expectant and nursing mothers and children under five years. 89-95.

GEFFEN, D. H., TURNER, K. & MANTON, N. The care and treatment of the handicapped child. 95-9.

22. Homeopathy; Osteopathy, &c.

Hahneman. Month., 1946, 81: (Aug.)

TROPEA, F., jr. Injuries of the chest. 328-41.

BAILEY, C. P. Carcinoma of the esophagus. 342-8.

J. Am. Inst. Homeop., 1946, 39: (Sept.)

CARTIER, F. Arterial hypertension. 299-302.

BOWIE, R. C. Observations on action of Myrica cerifera. 303.

FARRINGTON, H. Homeopathic philosophy. 308-11.

23. Hospitals

Hospital, Lond., 1946, 42: (Aug.)

BOMPAS, R. M. Some ideas on the administrative organisation of the regional hospital boards. 317-20.

USE (The) of activated DDT emulsion paints in the control of insect pests. 321-5.

CLARK, H. H. Hospital planning; plan examples. 331-3.

SANDFORD, H. A. Hospital lifts. 335-7.

Mod. Hosp., 1946, 67: No. 3. (Sept.)

BIRREN, F. Color and psychotherapy. 54.

GEORGE, A. K. Health centers under two roofs to serve the people of Cincinnati. 56-9.

JACOBY, P. J. Music is in tune with the art of healing. 60.

HAMMOND, F. P. Can doctors and hospitals get along? 62-7.

LOSEKE, E., FERGUSON, E., & BRYAN, M. D. The case of dietitian versus hospital field. 71.

FLYNN, J. A. P. Fire costs more than prevention. 80-3.

STELLAR, S. The modern mental hospital must be planned around the patient and integrated with the community. 86-9.

JOSLIN, E. P., & SHEPLEY, H. R. The ideal diabetic unit; of the hospital but not in it. 100-4.

SEDGWICK, J. Sample meals show dietary deficiencies in tuberculosis hospitals. 112.

South. Hosp., 1946, 14: No. 9.

CHRISTIAN, A. W. Solving the incomplete records problem. 35.

LORETTA MARY (Sister). General duty nursing in the hospital. 39.

COVALT, D. A. The care of the veteran. 43-7.

25. Industrial Hygiene; Sociology

Indust. M., 1946, 15: (Sept.)

NEWQUIST, M. N. Occupational medicine; retrospect and prospect. 509.

KEHOE, R. A. The industrial environment. 510.

DUNCAN, P. E. Perforating ocular injuries. 512-4.

SAFETY engineering unit of the State of Michigan Department of Labor and Industry. 514.

WORKER (The) and his job; symposium at the Annual Meeting of the Western Association of Industrial Physicians and Surgeons, San Francisco, June 30, 1946. 515-27.

HANNON, J. W. G. The utilization of aluminum in the prevention and treatment of silicosis. 527.

SANDER, O. A. The pneumoconioses. 528-30.

Indust. M., 1946, 15: (Aug.)

LEGGE, R. T. Bernardini Ramazzini, his life, deeds and book. 467-72.

SAPPINGTON, C. O. Industrial Health Conference; highlights of proceedings of annual meetings of industrial physicians and surgeons, hygienists, nurses, and dentists, Ch icago, April 7-14, 1946. 472-91.

MILLMAN, N., CALDERON, F., & GREENBURG, L. Cooperative plan for the development of small plant health and industrial hygiene program in New York City. 472.

BREHM, P. Administrative aspects of mass radiography. 473.

TOWNSEND, J. G. Expansion of industrial hygiene programs in official agencies. 473.

FAIRHALL, L. Toxicology of newer metals. 474.

SPOLYAR, L. W. Health services for official agencies at the state level. 474.

MARKUSON, K. E. Decentralization of official industrial hygiene activities. 475.

FARNER, L. M. Coordination of official industrial hygiene program with other agencies. 475.

GOLDMAN, F. H., & MAY, I. Use of the Polarograph in the industrial hygiene laboratory. 475.

BARNES, E. C. Determining the concentration of mercury in the air. 476.

HARTZ, N. W., JACOBSON, M. G., & COTABISH, H. N. New developments in commercial instruments of air analysis. 477.

LARGENT, E. J. Urinary fluorine excretion and the control of exposures in alkylation plants using the hydrogen fluoride process. 477.

CHOLAK, J. & HUBBARD, D. The determination of antimony in biological material. 477.

CHIRICO, F. N. Industrial hygiene in the construction industry. 477.

SEIFERT, H. E. Mercury vapor hazards in certain chemical laboratories. 478.

WINN, G. S. Con trol of lead exposures in storage battery manufacturing. 478.

NEWQUIST, M. N. The 31st annual meeting of the American Association of Industrial Physicians and Surgeons also marks its first peacetime conference after World War II. 479.

KEHOE, R. A. Presidential address of the American Industrial Hygiene Association. 480.

KRONENBERG, M. H. The development of improved human relations in industry: the Caterpillar program. 480.

WEBER, L. F. Industrial dermatoses. 481.

GURDJIAN, E. S. Basovascular spasm. 481.

DART, E. E. The evaluation of vibration syndrome in industry. 481.

SIEVERS, R. F. Polyneuritic syndrome in occupational diseases. 481.

HEPPEL, L. A. Toxicity and potential dangers of ethylene dichloride. 482.

WEBSTER, S. H. Volatile hydrides of toxicological importance. 482.

FREDRICK , W. G., & BRADLEY, W. R. Toxicity of some materials used in manufacture of cemented tungsten carbide tools. 482.

TREON, J. F. A comparison of the physiological effects of monomethylaniline and xylidene. 483.

SMITH, W. W. The acute and chronic toxicity of methyl chloride in laboratory animals. 483.

SVIRBELY, J. L. The appraisal and potential dangers of petroleum solvents with special reference to particle size. 483.

OGLESBY, F. L. & STERNER, J. H. Quinone vapors and their harmful effect: plant exposures associated with eye injuries. 483.

ASTON, E. R. Dental review survey. 483.

PUCK, T. T. The dispersion and control of triethylene glycol vapors for aerial disinfection. 484.

CRAVER, B. N. Prophylaxis against mercury-induced ventricular fibrillation. 485.

CURTISS, L. F. Current and future environmental control problems attendant to the use of radioactive energy. 484.

MILLMAN, N., & DONNELLY, V. Health records in small plants. 491-7.

WITTMER, J. J. Pre-payment as a private enterprise. 497-9.

Month. Rev. N. York Dep. Labor, 1946, 25: No. 9.

HEIMANN, H., & SILVERBERG, M. G. Onycholysis in fur workers. 3.

27. Medicine

Am. J. Med., 1946, 1: (Sept.)

GOODMAN, L. S., TOMAN, J. E. P., & SWINYARD, E. A. The anticonvulsant properties of tridione. 213-28.

RICKETTS, H. T., BRUNSCHWIG, A., & KNOWLTON, K. Effects of total pancreatectomy in a patient with diabetes. 229-45.

FARNSWORTH, E. B. Clearance of inulin, diodrast, chloride and phosphate under mercurial diuresis; intensive study of a patient in severe cardiac failure. 246-51.

RAGAN, C., & TYSON, T. L. Chrysotherapy in rheumatoid arthritis. 252-6.

BACON, H. E., FLEMING, J. P. [et al.] The diagnosis an d treatment of diseases of the anorectum. 257-67.

BARACH, A. L., GARTHWAITE, B. [et al.] Penicillin aerosol and negative pressure in the treatment of sinusitis. 268-90.

GOLD, H., EGGLESTON, C. [et al.] Treatment of coronary artery disease. 291-301.
